

GOLD NOTE

Italian Music Experience

MAIN DETAILS

Wow & Flutter: 0,1%

Rumble: -78dB

Speed: 33 $\frac{1}{3}$ e 45 rpm +/-0,1%

Speed Control: electronic with fine pitch control

Transmission: 70 shores rectified NBR rounded belt

Main Supply: 100/115/230V, 50/60Hz

Power Consumption: 20W max

Motor: 12 Volt High Torque synchronous externally powered

Platter: 33mm Ultra-Dead design in Sustarin

Platter Spindle: Split-Spindle™ clamping design

Platter Bearing: Chromed steel 5mm ball bearing & adjustable brass seat

Tonearm: Gold Note B-5.1

Dimensions: 425mm W | 200mm H | 360mm D

Weight: 15Kg

FINISHES

Lower Plinth: Italian Walnut, Black or White Lacquered MDF

Upper Plinth: Black Polished Acrylic

Metal: Black anodised Aluminium

Platter: Black Sustarin

Giglio

The Italian Turntable

THE ITALIAN TURNTABLE

We believe that every hand made turntable has something special and what we make carries a small part of the Italian heritage, showing our dedication to native traditions, history and to our passion: this is how we craft the perfect music source.

Such passion defines all our turntables and drives us to design with great care and attention to every single detail in order to deliver the best audio performance through the most fascinating sources of music.

Giglio is one of our best creations and redefines the traditional design of a turntable using innovative shapes, quality materials and technical solutions to merge tradition with technology.

The particular curves result in extra rigidity and allow Giglio to achieve a superior performance and deliver pure sound and details to recreate the musical event.

The new polished pulley with its hourglass design allows the belt to spin smoothly reducing even more the Wow&Flutter and the rumble.

A smooth performer, with an effortless style that makes it easy to forget the mechanics of the process and enjoy the music.

You get out of this turntable every bit as much as you want to put in!

- Jason Kennedy

INNOVATIVE POWER CONTROL

The Power Supply of the 12 Volt synchronous motor made in Swiss has been developed to ensure perfect music playback.

Thanks to our proprietary power control system based on a Quadral-Core micro, Giglio can effectively reduce vibrations and develop high torque for the greatest dynamic and resolution.

The Power Supply Unit electronically controls the 33rpm and the 45rpm mode and the speed fine adjustment, storing the settings in memory.

HIGHLY PRECISE BEARING DESIGN

Giglio features a 33mm thick platter made of Sustarin and a high precision bearing/spindle design with ultra-strict matching tolerances.

The spindle is made of rectified hardened chromed Steel while the bearing is in Tungsten, both engineered to obtain great rotational stability and very low noise.

EASY TO SET UP

Ready to play out of the box, the bundle includes a dedicated Gold Note B-5.1 tonearm and a custom moulded transparent Dust Cover (easy to remove with Gold Note proprietary hinges).
