Valore 425 Lite

The Italian Turntable

Via della Gora, 6 | Montespertoli (Firenze) Italy 50025

THE ITALIAN TURNTABLE

Valore 425 Plus is the most complete and musically satisfying turntable of its category and offers an unbeatable performance.

This elegant and smart turntable has been developed for musical pleasure and every single feature is in fact directly derived from our flagship series.

The 30mm plinth has been wisely designed and shaped to reduce vibrations and guarantee audiophile sound: despite its compact size, Valore 425 Plus supports the standard 9" tonearms installation and comes in bundle with the Gold Note B-5 9" tonearm and the ultra-transparent hinged Dust Cover.

Technical perfection and attention to materials are behind its modern beauty: the design is sober, stylish and with luxurious finishes, serving the sole purpose to extract even the finest detail from the vinyl groove.

Available in Italian Walnut, Transparent Acrylic, lacquered in Black or White, or covered in real leather.

Valore 425 Plus has followed a series of very talented (and generally more expensive) turntables through the test process and not once has it been anything less than a pleasure to listen to.

This newcomer is just too good to ignore.

- Ed Selley

Hi-FiChoice

SONICALLY EXCEPTIONAL

The 60mm platter bearing and spindle is finely machined to achieve the best quality and combined with the high dampening platter in PTE makes Valore 425 Plus an extraordinary silent turntable.

The new perfectly polished hourglass pulley reduces even more the Wow&Flutter achieving smooth and steady rotational stability.

PERFORMANT

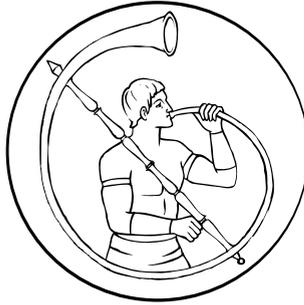

The 12V synchronous motor is extremely efficient and noiseless: its high torque guarantees always very precise control over speed and low friction and vibrations.

The speed modes - 33rpm and 45rpm - are electronically controlled and can be finely adjusted to fine tune the turntable and install it faultlessly in every High-End audio system.

EASY TO SET UP

Ready to play out of the box, the bundle includes a dedicated Gold Note B-5 9" tonearm and a custom moulded transparent Dust Cover (easy to remove with Gold Note proprietary hinges).
