

GOLD NOTE

The Renaissance of Technology.

Phono Preamp **PH 11**

The Gold Note PH-11 is a three chassis quadruple battery automatic charging power supply fully balanced MM & MC phono preamplifier.

The PH-11 features a massive power supply able to enhance great energy with any kind of phono cartridge like the active phono step-up's. The extremely silent background stage let the unit play even lower than 0.1mV output level phono cartridges with ease and magnificent audio quality.

The PH-11 is powered by a sophisticate system automatically recharges all the four batteries exactly when needed without interrupting the unit continuous working.

The PH-11 features a Gold Note proprietary fully balanced four double stabilized mono amp stage design.

The unit enables a Gold Note design allows easy-setting MC phono cartridge matching. For all phono cartridges below 10ohm internal impedance normally needs an external step-up transformer, the unit is supplied with two pair of loading plugs to find the perfect match in any condition of work.

The PH-11 enables superior performance with any audio system, a flagship phono preamplifier of Gold Note electronic lines.

SPECIFICATION

FREQUENCY RESPONSE – 20Hz – 20KHz @ +/- 3dB
THD (Total Harmonic Distortion) <0.002% THD @ 20Hz-20KHz
RATIO SIGNAL TO NOISE -108dB

Audio Inputs

ANALOGUE INPUTS One stereo RCA
INPUT SENSITIVITY – From 0.1mV MC – up to 6.0mV MM
INPUT IMPEDANCE fixed 470Ω MC variable 47kΩ MM
GAIN 70dB MC 48dB MM

Audio Outputs

AUDIO OUT Stereo RCA and XLR balanced

Power

MAINS SUPPLY – 100V 115V 230V 50 or 60Hz (depending on market destination not convertible)
POWER SUPPLY – Quadruple Batteries with Temperature Automatic Stabiliser
POWER CONSUMPTION – 50watt Max

Upgrades

Gold Note Lucca Power Cord

Physical

DIMENSIONS – 3x 200mm L x 85mm H x 260mm D
TOTAL WEIGHT – 8,5Kilos (19Lbs.)
